CLINICAL RESEARCH

CLINICAL RESEARCH

BANFF SPORT MEDICINE RESEARCH GROUP

OUR MISSION

To conduct leading-edge bone and joint clinical research. Our research will enhance clinical care, patient education, and the overall quality of life for people with bone and joint problems by implementing and applying evidence-based medicine.

WHAT DO WE MEAN BY CLINICAL RESEARCH?

Clinical research is patient-focussed research that answers questions about musculoskeletal conditions, how they can be prevented and how they can be treated.

WHAT DOES THIS MEAN FOR OUR PATIENTS?

You can be involved in helping to build evidence-based musculoskeletal care by supporting our research. You may also have the opportunity to participate in one of our clinical trials.

WHY IS RESEARCH SO IMPORTANT?

Research ensures that Banff Sport Medicine is on the forefront of musculoskeletal clinical care. What we discover today will improve treatment tomorrow.

FOR MORE INFORMATION PLEASE SEE OUR WEBSITE | www.banffsportmed.ca

If you prefer you can donate online via the Alberta Bone and Joint website:

<http://www.albertaboneandjoint.com/>

Click the blue button on the middle left of this page which will direct you to the Canada Helps website.

Enter your donation amount and then under Fund/Designation select Sports Medicine Research to direct your donation to our Banff Research Team.

Thank you in advance for supporting our research program.
